\*This is in no way a recommendation or an endorsement by providing the above list of contractors. Customers must beware any problem arising from the inspection or certification will remain between the contractor and the customer.

In the event you choose to hire a different contractor, be sure to have them pre-approved.

Utility criteria are:

- Technician must be an Under Ground Utility Contractor or Florida Licensed Plumber
- Current Certificate of Insurance showing enforced General Liability, Automotive Insurance Certificate and Workmen's Compensation (or Florida issued exemption card)
- Current Occupational License – Per County
- Technician must provide current State of Florida Certification for **both** "Backflow Assembly Repair and Certification"

Customers must provide the utility with the originally completed Certification Form provided by the Technician / Contractor no later than by November 30, 2009.

**Contractors must use the Orange Tree Utility Certification Form. Our office can only accept completed originals; copies or incomplete certification reports will not be accepted.**

We appreciate your cooperation regarding this matter.

Sincerely,

Elisa Reyes  
Customer Service Representative
